EDUCATION

Bachelor of Computer Applications – Computer Science & Engineering, University of Kashmir, India, Dec 2021

TECHNICAL SKILLS

Programming Languages & Technologies: JavaScript, TypeScript, HTML, CSS.

Web Frameworks & Libraries: React.js, React Native, Expo SDK, Redux, Context API, Sass/Scss, MUI, Tailwind CSS, Bootstrap, jQuery, Semantic UI, NativeWind, AG Grid, High Charts, Wordpress.

Databases: MySQL.

Tools: Postman, Adobe XD, Git, JIRA, DBeaver, Firebase, Sanity.io.

PROFESSIONAL EXPERIENCE

DashClicks LTD, Fort Lauderdale, Florida, US, *Senior Frontend UI Developer (Remote, India)* Jan 2022 – Present

- Translated **Figma/Adobe XD** designs into **pixel-perfect UI** using **React, React Native, TypeScript, SCSS** and **Tailwind CSS** for web and mobile platforms.
- Developed and integrated a **live chat widget** and **real-time** messaging app for seamless communication between users and support teams.
- Led the creation of a **scalable design system** using **Material UI (MUI)**, improving consistency across the entire platform.
- Integrated and optimized **REST APIs** across apps, enhancing data flow, performance, and user experience.
- Collaborated with backend developers to ensure smooth integration and optimized **load times**.
- Spearheaded **UI development** for DashClicks **CRM**, ensuring **responsive design** and efficient functionality.

RedStagLabs Pvt. Ltd, Srinagar, India, *Software Developer (OnSite, India)* Feb 2021 – Jan 2022

- Led the **front-end development** of a **multi-vendor e-commerce platform** using **React, TypeScript**, and **SCSS**, ensuring a **responsive user experience** across all devices.
- Designed and implemented high-fidelity **wireframes** and **prototypes** using **Adobe XD** and **Figma**, improving **UX** and **conversion rates**.
- Supervised the **front-end team**, fostering **innovation** and adhering to best practices within **Agile workflows**.
- Integrated and optimized **REST APIs**, improving platform **functionality** and **performance**.

PROJECT EXPERIENCE

Dashclicks

- Technologies:** React, React Native, TypeScript, Context API, JavaScript, Redux, GrapesJS, Sass/Scss, MUI, APIs, Highcharts.
- Live Chat Widget:** Developed and integrated a **script-based live chat widget** for client websites, ensuring **real-time communication** and seamless user interactions.
- CRM UI:** Led the **front-end UI development** for CRM apps, focusing on **responsiveness, API integration**, and **user experience**.
- Conversations App:** Built a **unified platform** combining chats, emails, and SMS for efficient communication with clients.
- Website Builder:** Developed a **no-code website builder** using **GrapesJS**, allowing clients to create custom websites easily.
- Design System:** Developed a comprehensive **design system** on top of **Material UI**, ensuring consistency in **branding** and **UI components** across all DashClicks apps.

RedStagLabs

- Multi-Vendor E-commerce Platform:** Developed a seamless, responsive **UI** for a **multi-vendor platform** using **React, TypeScript**, and **SCSS**.
- Design & UX Flow:** Created **high-fidelity wireframes** and **UX flows** using **Adobe XD** and **Figma**, leading to improved **user engagement** and **satisfaction**.
- Team Leadership:** Managed the front-end team, ensuring successful delivery of features and optimizations.
- API Integrations:** Integrated **REST APIs** for **optimal performance, functionality**, and seamless communication between front-end and back-end systems.

PERSONAL PROJECTS

- **Food Delivery App:** Developed an app with **GraphQL APIs (Sanity.io)**, **Expo**, and **React Native Maps** for real-time **location tracking**.
- **Favorite Places App:** Created an app where users can **save current locations** or **pin-drop places on a map** with images.
- **Expense Tracker App:** Built a **budgeting app** using technologies like **Redux**, **Async Storage**, and **React Navigation**.
- **Bare React Native Apps:** Developed projects **without Expo**, focusing on **scalability**, **performance**, and **native integrations**.

ACHIEVEMENTS

- **Stack Overflow Recognition:** Contributed to the community by answering developer queries, with responses reaching over 108k developers. Promoted to the Supporter badge, enabling advanced community engagement.
- **Professional Recognition:** Consistently recognized for high-quality work, particularly in UI development, API integrations, and performance optimizations.
- **Leadership Excellence:** Successfully led teams and managed projects, delivering high-quality, scalable UI components and features across multiple platforms.
